

DevOps Engineer - Own CI/CD for High-Stakes Crypto Systems

ScaleUp

Vast

80k

COMPANY PROFILE

This crypto trading platform handles tens of thousands of daily transactions and is regulated by the Dutch central bank. The engineering culture is sharp, collaborative and ownership-driven. You'll join a compact DevOps team (3 total) and work across infra, release tooling, and reliability.

The office near Schiphol-Rijk is well-equipped — gym, bar, creative spaces — and engineers typically work 3 days per week on-site.

JOB DESCRIPTION

In this role, you'll:

- Maintain and improve deployment pipelines (GitHub Actions, ArgoCD)
- Manage infrastructure using Terraform and Kubernetes (GKE)
- Ensure safe, fast and secure delivery across dev, staging and prod
- Collaborate with software teams to streamline releases
- Track system health and observability using Grafana/Prometheus
- Help evolve standards around security, uptime and config management

REQUIREMENTS

- 4+ years in DevOps or infrastructure engineering
- Proficient with GCP and Kubernetes in production environments
- Solid experience with CI/CD automation (GitHub Actions, ArgoCD, etc.)
- Strong scripting and troubleshooting skills
- English fluency, Netherlands-based only (no relocation or visa support)

WHAT YOU GET IN RETURN

Joining our client means becoming part of an **ambitious and engaged team**. Here's what you can expect:

- **Innovative projects** in the dynamic world of crypto.
- **Salary up to €105k.**
- A **modern office** with a private gym, company bar, and relaxation areas.
- **Daily perks** such as free lunch, fresh fruit, and Friday afternoon drinks.
- A **pension plan** and **commuting allowance**.
- **25 vacation days.**
- **Monthly chair massages** and access to the Alleo benefit program.
- A **€250 home office setup budget.**
- **Regular team activities** and outings to keep the energy high.
