## COMPANY PROFILE

Our client is an innovative crypto broker on a mission to make cryptocurrency accessible to everyone. They combine cutting-edge technology with a strong focus on user-friendliness. Their products are consumer-facing and run on scalable, modern technologies. With around 100 enthusiastic professionals, the team forms a close-knit and energetic group. They believe in maintaining a healthy balance between work and enjoyment. Their modern office, located at Schiphol-Rijk, is equipped with all conveniences, including a private gym to unwind after a hard day's work. It's a place where collaboration is key, and colleagues inspire each other to always take that extra step. Many employees enjoy working on-site, creating a lively and motivating atmosphere.

The team consists of three specialized squads relevant to this role:

- **Trade team:** Works on the trading experience and frameworks directly connected to the backend.
- **Frontend team:** Focuses on improving the public website, login systems, and SEO.
- **Mobile team:** Develops and maintains the app (React Native) to ensure a seamless user experience.

This is the ideal environment for smart, motivated doers who thrive on technical challenges and collaboration. Here, you have the space to grow and make a real impact.

## ROLE DESCRIPTION

As a Frontend Developer with React.JS, you will work on a wide range of projects and take responsibility for front-end architecture and performance. You ensure the public website is not only functional but also visually appealing and fast. Together with your team:

- You build new features for the public website, such as SEO optimizations and user portals.
  - You implement designs pixel-perfectly using HTML and CSS.
  - You improve the public website to make it as powerful and functional as the app, including features like asset profit and loss tracking.
  - You enhance front-end architecture for performance and scalability.
  - You resolve technical debt and contribute to code clean-ups.
  - You proactively think of new ideas and solutions that make an impact.
- 

## REQUIREMENTS

We are looking for a smart, driven developer who feels at home in a dynamic environment. Here's what we value:

- **Experience:** At least 3 years of experience, preferably with React and TypeScript. Are you a frontend superstar with expertise in Vue or Angular but eager to work with React? Definitely apply!
- **Quality:** You have a keen eye for detail and write maintainable, scalable code.
- **Creativity:** You can simplify complex problems.
- **Consumer-focused mindset:** Experience with consumer-facing platforms, such as e-commerce, is a plus.
- **Hands-on mentality:** No complainers, just doers!
- **Ambition:** A background with academic or personal projects where you went the extra mile is appreciated.

## CONDITIONS

Working with our client means becoming part of an ambitious and dedicated team. Here's what you can expect:

- Innovative projects in the dynamic world of crypto.
- Salary up to €85k
- A modern office with a private gym, company bar, and relaxation areas.
- Daily perks such as free lunch, fresh fruit, and Friday afternoon drinks.
- A pension plan and commuting allowance.
- 25 vacation days.
- Monthly chair massages and access to the Alleo benefit program.
- A €250 home office setup budget.
- Regular team activities and outings to keep the energy high.
