ABOUT THE COMPANY

Logistics is one of the world's biggest industries—and it's still running on outdated systems. Our client is changing that. Since 2018, they've been building a **cloud-based SaaS platform** that streamlines global freight forwarding. Their software is used by international clients to manage shipments faster, smarter, and fully digital.

The team: A small but experienced development team (6 developers) working on an industry-leading platform.

The culture: Freedom, responsibility, and innovation. No red tape—just smart people solving real problems.

Now, they're growing, and they need a **Fullstack Developer** to help take their platform to the next level.

WHAT WILL YOU BE DOING?

As a **Fullstack Developer**, you'll work on the core of their platform: **customer and operations portals** that modernize freight forwarding.

- **90% development, 10% operations,**
- Work with **Vue.js (frontend) & NestJS (backend)**
- Build **scalable, cloud-native applications**
- Solve complex **technical challenges** around performance, stability, and optimization
- Collaborate in a **fast-moving, agile team**

You'll have the freedom to **experiment, take ownership, and shape the platform's future.**

WHAT DO YOU BRING TO THE TABLE?

3+ years experience as a Fullstack Developer

Strong in **TypeScript, Vue.js & GraphQL**

Nice-to-haves: **Node.js, PostgreSQL, TypeORM**

You thrive in a **fast-growing scale-up environment**

You enjoy solving **complex challenges** and building efficient solutions

WHAT WILL YOU GET IN RETURN?

- A salary of up to 75K a year, based on your knowledge and experience
- The option to work mostly remote (in general 1 day per week at the office, but there is a lot of freedom)
- 25 vacation days per year based on a 40 hour work week
- 8% Holiday pay
- Full compensation of travelling expenses
- Option to work from home if you are living abroad in the EU
