WHAT DO THEY DO?

Our client was founded with a vision of combining commerce and idealism, and they are committed to changing the world through the incorporation of the "unincorporate." They believe that businesses can have a positive impact and therefore focus on supporting mission-driven brands in digital innovation. Additionally, they play an active role in the development of start-ups, providing not only services but also being involved as stakeholders.

Our client is dedicated to accelerating the transition to a new way of doing business. They combine their expertise in software development and digital solutions with a deep commitment to their clients. They assist in creating impactful projects and strive to use the world of technology to bring about positive change. What sets our client apart is their emphasis on creating an open culture without hierarchy, where everyone is equal and teams are self-organizing. This fosters a creative and collaborative environment where ideas can flow freely, and innovation thrives.

As a future certified bCorp company, they are committed to sustainability and social responsibility. Our client aims not only to grow as a business but also to contribute to a better world. They believe that it is possible to be successful in the business world while simultaneously making a positive impact on people and the planet. With their focus on mission-driven brands, involvement in start-ups, and distinctive company culture, our client is a leader in the digital agency realm. They bring together idealism and commerce, creating an inspiring environment where they can make a difference and help others do the same.

WHAT ARE YOU GOING TO DO?

As a Backend/Fullstack Developer, you will play a crucial role in creating innovative and impactful digital solutions for mission-driven brands and start-ups. Collaborating with cross-functional teams, you will develop cutting-edge web applications and contribute to our client's diverse portfolio of projects. Responsibilities include:

- Collaborating with designers, product managers, and other developers to translate business requirements into high-quality code and functional web applications.
- Developing and maintaining scalable and robust backend solutions using PHP and Drupal.
- Implementing responsive designs and optimizing applications for maximum speed and usability across various devices and browsers.
- Participating in code reviews, debugging, and troubleshooting to ensure the quality and stability of developed applications.
- Staying updated with the latest industry trends and best practices, continuously enhancing your technical skills and knowledge.
- Contributing to the improvement of development processes and workflows, striving for efficiency and productivity.
- Working in an agile and self-organizing team environment, actively participating in sprint planning, stand-ups, and retrospectives.
- Collaborating with stakeholders to understand project requirements, providing technical insights, and delivering solutions that align with the client's objectives.

WHAT DO YOU NEED TO HAVE?

To succeed in this role, you should have a strong ability to work independently and demonstrate a high level of autonomy in your development tasks. You should be self-driven, capable of making informed decisions, and have a strong sense of initiative to tackle challenges and find innovative solutions. Requirements include:

- Strong proficiency of 3+ years in backend and/or fullstack development.
- Extensive experience with PHP and Drupal, including custom module development and theming.
- Knowledge of modern web standards, responsive design principles, and front-end technologies such as HTML, CSS, and JavaScript.
- Familiarity with version control systems (e.g., Git) and agile development methodologies.
- Ability to write clean, efficient, and maintainable code, following industry best practices.
- Excellent problem-solving and debugging skills, with a keen attention to detail.
- Strong communication and collaboration skills, with the ability to work effectively in cross-functional teams.
- Passion for technology and a desire to create impactful digital experiences.

THIS IS WHAT YOU WILL GET

Besides a lovely work environment:

- Salary Range: You can expect a monthly salary between €3500 and €4400, based on your skills and experience.
- Flexible Working Hours: We offer flexibility in working hours, allowing you to maintain a healthy work-life balance.
- Hybrid Work Option: You have the opportunity to work both remotely and from our office, providing flexibility in your work location.
- Paid Time Off: You will receive 25 vacation days per year, and you'll also have paid time off during the Christmas and New Year holidays.
- Top-notch Equipment: You will be provided with a MacBook Pro and other necessary hardware for your work, both at the office and for remote work.
- Social Company Culture: we foster a social and friendly company culture. Our team consistently rates our culture as a 9 out of 10, emphasizing safety, social interaction, equality, and openness.
- Professional Development Support: We invest in your professional growth and provide resources such as courses, coaching, and events to help you enhance your skills and knowledge.
