HAYSTACK PEOPLE

Medior frontend developer | Dordrecht

Established | Vast | 60k

BEDRIJFSPROFIEL

Our partner is an international, product-driven organization active in the relocation and moving industry. From the Dordrecht area, they build and maintain a digital platform that connects consumers worldwide with reliable service providers.
The organization operates in dozens of countries and manages a large partner network. With multiple platforms, an in-house internal system, and an extensive ecosystem of websites, they receive hundreds of thousands of consumer requests annually.
The culture can best be described as **open, informal, and entrepreneurial**. Despite having a scale-up mindset, the company offers stability and a long-term vision. Teams are small and closely connected, collaboration is key, and there is plenty of room for initiative, ownership, and personal development.

FUNCTIE OMSCHRIJVING

As a **Front-End Developer**, you are responsible for developing, structuring, and optimizing the entire front-end environment. You work closely with back-end developers, a product manager, and design to continuously improve user experience, performance, and code quality.
Your responsibilities include:

- Developing and maintaining **custom WordPress environments** (no page builders)
- Translating Figma designs into **pixel-perfect components**
- Optimizing performance, accessibility, and responsiveness
- Contributing to UI/UX improvements and design systems
- Sparring with fellow developers on architecture and code quality
- Identifying and resolving technical debt
- Working on smaller JavaScript/Angular components within forms and portals
- Ensuring consistent branding and functionality across multiple platforms

You will join a small, tight-knit development team where collaboration and communication are valued over hierarchy.

FUNCTIE EISEN

- Approximately **4+ years of experience** in front-end development
- Proven experience with **custom WordPress themes and templates**
- Strong knowledge of **HTML, CSS/SASS, and JavaScript (ES6+)**
- Experience with **Tailwind** or similar CSS frameworks
- Affinity with UI/UX and strong attention to detail
- Experience implementing designs from Figma
- Comfortable collaborating with back-end developers
- Proactive mindset and strong communication skills
- Good command of English

Nice to Have

- Basic knowledge of PHP
- Experience with Laravel, Livewire, or Angular
- Experience with design systems or component libraries

ARBEIDSVOORWAARDEN

- Salary indication of **€3,500 – €4,500 gross per month** based on 40 hours, depending on experience
- 8% holiday allowance
- Pension scheme
- 25 vacation days
- Travel reimbursement
- Hybrid working model with **2–3 office days per week** in the Dordrecht area
- Informal work culture with short communication lines
