HAYSTACK PEOPLE

Senior Full-stack developer (NodeJS/Typescript)

ScaleUp | Vast | 90k

COMPANY PROFILE

This international software agency specializes in solving complex e-commerce and integration challenges. The company partners with high-volume B2B brands across retail, manufacturing, and distribution

They are known for delivering backend-heavy, scalable Shopify Plus solutions and robust integrations with systems like ERP, WMS, POS, and accounting platforms. This includes financial syncs, real-time data pipelines, and high-SKU environments.

Engineering teams are located in The Netherlands (Rijswijk HQ), Canada (Vancouver & Toronto), and Vietnam, working closely across time zones. The company's culture is pragmatic, fast-moving, and highly technical. Developers are encouraged to lead initiatives, challenge assumptions, and bring in new tools or approaches.

Recent projects include:

- ERP integrations (e.g. NetSuite, SAP) with Shopify Plus
- Real-time product and inventory syncs for multi-region storefronts
- Financial reconciliation tooling for accounting platforms
- Building internal developer tools and shared NPM libraries
- Onboarding and mentoring engineering talent in new regions

JOB DESCRIPTION

- Build and maintain backend integrations, microservices, and private apps
- Work with TypeScript, Node.js, PostgreSQL, GraphQL, and REST APIs
- Integrate third-party platforms like ERPs, WMS, and POS systems
- Contribute to a modern monorepo setup and internal tooling
- (Optional) Support frontend with React, Shopify Polaris, and Remix
- Collaborate with global teams using GitHub, Linear, and Notion
- Participate in sprints, scoping, code reviews, and team discussions

JOB REQUIREMENTS

- 5+ years of experience as a backend or full stack developer
- Strong in TypeScript and Node.js
- Solid knowledge of PostgreSQL, REST APIs, GraphQL
- Experience working with scalable integrations and backend architecture
- Bonus: experience with Shopify or other e-commerce platforms
- Proactive mindset and a collaborative working style
- Comfortable working in a fast-paced, remote-friendly engineering culture

BENEFITS

- Salary up to €90.000/year (based on 40 hours)

- Hybrid work: 2/3 days a week at Rijswijk office (Friday = fixed team day)
- Possibility to work 32 hours/week
- Performance-based bonuses and incentives
- Travel opportunities to Canada and international collaboration
- Strong mentorship and clear technical growth paths
