HAYSTACK PEOPLE

PHP Developer | Software House

Established | Vast | 60k

WHERE ARE YOU GOING TO WORK?

Our partner is a true technology company at heart. With their specialization in web development, particularly using Laravel and PHP, they translate the latest technological trends into user-friendly, scalable, and secure platforms. You will be involved in the entire development process and utilize your expertise to ensure that each platform meets the highest quality standards.
Additionally, you will have the opportunity to be involved in integrating various systems and APIs, including payment options and accounting packages. Our partner goes beyond just developing APIs. Together with you, they brainstorm the best ways to leverage these APIs and optimize the platform for maximum impact.
In addition to the technical aspects, our partner also offers excellent hosting services. With their advanced infrastructure, they ensure that our clients' platforms are always secure, reliable, and cost-efficient. You will have the chance to closely monitor these platforms and ensure they comply with the highest security standards.
At our partner, the work doesn't end after the launch of a product. You remain involved in the process and play a crucial role in analyzing data and optimizing the platforms. Through A/B testing and thorough data analysis, they strive to maximize the return on investment from each platform. Because happy customers make them happy!

WHAT WILL YOU BE DOING?

At their company, you will work with the Laravel framework, primarily focusing on developing new features and lead generation. You will become part of a close-knit team of 7 talented developers who collaborate to identify and resolve bugs.
They value critical thinking and strive for continuous improvement. As part of the team, you will be encouraged to closely examine solutions and code to deliver the best possible results. They believe in constantly refining the platform to ensure optimal performance and provide users with a great experience.
Together with your colleagues, you will work on a thoroughly developed and robust platform. You will be involved in implementing new functionalities and enhancing the user experience. The work environment is dynamic and stimulating, where taking initiative is appreciated. They encourage you to further develop yourself and contribute your ideas. Together, you work towards the success of the platform, and your contribution is invaluable.
As part of their team, you will not only enjoy the challenges of the work but also the inspiring atmosphere and energetic vibe of their office located in the heart of Rotterdam. They believe that a positive and stimulating work environment leads to delivering top-quality work and achieving excellent results.
