COMPANY PROFILE

Our client delivers the largest online media platforms in the Netherlands for clients such as NPO, FOX Sports, Videoland, and Pathé Thuis. Their international customer portfolio includes Apple, Netflix, HBO, and Discovery. When it comes to media technology, they can say that we are the market leader. They want to constantly exceed the expectations of the end-users. In addition, they like to invent the wheel ourselves. So that they have to come up with smart, infinitely scalable solutions for complex challenges. The team with more than 3,000 employees of which about 50 developers are driven by passion and a focus on technical innovation, and together they have supported productions in over 65 countries on all seven continents.

JOB DESCRIPTION

As a Backend Developer, you will work in one of the Scrum teams, where you will work on our VOD platform that is the engine behind products such as Videoland and Pathé Thuis. It's a project-based company, so you will work on various other projects.
As part of the development department, you will work together with international colleagues from the US, India, and Mexico, among others. The team is professional and creative, so expect a lot of freedom. It is therefore good to have a great sense of responsibility and that operating independently is something that they can safely leave to you. You will work with the latest technologies, and you will not be afraid to invest and familiarize yourself with this.

JOB REQUIREMENTS

- Are an intelligent and flexible developer who likes to work on various types of technology.
- You don’t think in terms of boxes. By this we mean that you are not afraid to use some infrastructure in the public cloud, investigate a new language or adjust a database schema. Of course, we have DevOps represented;
- Have experience with PHP and Symfony or Laravel
- You have experience with popular languages such as Node, Go, Python, PHP but are not afraid of JavaScript work in the front end.

WORKING CONDITIONS

They offer an alternate job in an open and collegial work environment. You work in an enthusiastic and passionate team and get well-trained and supervised during your work. Of course, we offer a competitive salary and working conditions.
