HAYSTACK PEOPLE

Senior React native developer

Established | Vast | 75k

BEDRIJFSPROFIEL

Join a leading digital agency with over 25 years of experience in developing award-winning apps and software. Our team works closely with diverse clients, including startups and major companies in media and telecom, to deliver tailored technical solutions for complex challenges. We believe in equal opportunities and value the strength of our diverse team, driving our success through collaboration and innovation.

Our projects range from enhancing user interfaces for media companies to developing robust mobile solutions for financial services. We emphasize a user-centric approach, ensuring our apps are not only functional but also intuitive and engaging. Working with us means being at the forefront of technology, constantly pushing the boundaries to create innovative digital experiences.

At our agency, professional growth is a priority. We provide opportunities for continuous learning and development, encouraging our team to attend industry events, workshops, and courses. We foster a collaborative environment where every team member's voice is heard, promoting a culture of shared knowledge and mutual support.

FUNCTIE OMSCHRIJVING

In this role, you will be crucial in shaping the architecture of projects and making them executable through innovative technical solutions. Your primary tasks will include implementing these solutions, thoroughly testing your work as well as that of your colleagues, and actively engaging with backend engineers to define databases and API contracts. Collaboration with UI/UX designers will also be key to bringing web and mobile application designs to life. As a senior developer, you will support our Head of Engineering and Technical Guides, becoming the go-to expert for React Native within the team. Adapting to our way of working while suggesting improvements, you will stay updated with the latest technological advancements, always driving towards enhancing our processes and outcomes.

FUNCTIE EISEN

- 6+ years in software development with HTML, CSS, and TypeScript/JavaScript.
- 3+ years of professional experience with React Native.
- Experience with web frontend technologies (React) or native mobile development.
- Solid understanding of RESTful APIs, Unit and E2E testing (Jest, Cypress, Maestro).
- Experience with CI/CD and agile methodologies (Scrum).
- Proven ability to guide junior developers.
- Excellent English communication skills.
- Results-oriented, creative problem solver, flexible, open-minded, and a team player.

ARBEIDSVOORWAARDEN

- Salary up to €75k
- We offer you a place in our diverse and experienced team of professionals, where you get to teach and learn at the same time
- You will have flexible working hours and a possibility to work from home or our office, or experience working as a digital nomad from another country for up to 2 months per year

- We encourage you to visit events and/or take courses to keep up-to-date and learn new skills by offering a yearly budget for personal development
- 25 paid vacation days per year
- Since we now work from home much more often, we contribute to your home internet subscription every month
- We also care about your wellbeing and offer you a choice between subscription for Headspace app or contribution to your gym membership
- To keep that close connection with our colleagues in Spain, we cover your flight tickets to Barcelona once a year, if you want to experience working from our office there
- We provide you with lunch, snacks and unlimited freshly ground coffee every day in the office
- A flexible pension plan
- All the hardware you need for work provided by us
- And, to top it off, what is work without some fun? We regularly organise drinks, dinners and other team building events
