COMPANY PROFILE

We are a rapidly growing company focused on delivering innovative online collaboration and communication platforms. With a focus on improving productivity and engagement within organizations, we develop tools for onboarding, smart employee conversations, satisfaction surveys, and more. The organization is structured around four teams working on different aspects of the platform, including maintaining and expanding existing functionalities, developing new features, and improving backend infrastructure.

ROLE DESCRIPTION

As a Backend Developer, you'll play a crucial role in modernizing their backend codebase. You'll work on transitioning their monolithic architecture to a scalable microservices architecture, leveraging your expertise in NodeJS and NestJS. You'll collaborate closely with cross-functional teams to develop new features, improve existing code, and enhance the overall quality of their software.

Responsibilities:

- Contributing to the development of backend functionalities using NodeJS and NestJS.
- Improving code quality, scalability, and maintainability.
- Collaborating with senior developers and participating in code reviews.
- Optimizing application efficiency and performance.
- Staying up-to-date with the latest developments and technologies in backend development.

REQUIREMENTS

- Minimum 2 years of experience as a backend developer with NodeJS.
- Minimum 6 months of experience with NestJS.
- Good communication skills and the ability to effectively communicate with technical and non-technical stakeholders.
- Experience with Agile development and DevOps practices is a plus.
- Passion for clean code and best practices such as DRY, KISS, and unit testing.

BENEFITS

- Salary up to €5500.
- A challenging and dynamic work environment.
- The opportunity to contribute to the growth of a rapidly growing company.
- Opportunities for personal and professional development with a budget.
- ClassPass.
- Hybrid work environment.
- Always healthy lunches.
