HAYSTACK PEOPLE

Medior Fullstack JavaScript developer

StartUp | Vast | 60k

COMPANY PROFILE

Our partner is an exciting and rapidly expanding Fintech in the Netherlands, on a mission to revolutionize how entrepreneurs handle their admin. No more juggling multiple tools, everything from documents to bank accounts and payment orders is now integrated in one app. This allows entrepreneurs to focus on what truly matters: growing their businesses. Currently in its start-up phase, the company is aiming to dominate the Dutch market before setting its sights on Europe.

With rapid growth, The are always looking to expand their team with enthusiastic new colleagues. If you share their passion for simplifying the lives of entrepreneurs and are looking for an exciting career opportunity, then you might be the right fit!

JOB DESCRIPTION

They’re on the lookout for a Medior Fullstack Developer ready to make a meaningful impact by helping expand their next-gen Cloud platform, APIs, and infrastructure.

You’ll be joining a rapidly expanding team of highly skilled developers, many of whom have experience at high-growth companies like Klarna and The Zone. You'll have the opportunity to collaborate with diverse teams. The teams ranging from Product Management to Client Support, Marketing, and Partners. You’ll not only contribute to development but also mentor and support your teammates, fostering an environment of continuous learning and open collaboration where knowledge is freely exchanged and best practices are embraced.

Your day-to-day will involve working with:

- Cutting edge technologies and AWS architecture;
- A Node.JS based microservice application (front-end in React);
- Complex financial services PSD2 platform, with its security, compliance and privacy requirements.

JOB REQUIREMENTS

- You need to have at least 3 years of experience with NodeJS and React.
- Its important have AWS experience.
- Typescript experience is a must have.
- You have experience with GraphQL.
- Its a plus if you have knowledge of (micro)services and Docker

WORKING CONDITIONS

- A competitive salary of up to 65k
- A travel allowance
- 28 vacation days
- Personal training budget
- Sociable drinks and team outings
