HAYSTACK PEOPLE

Tech Lead Frontend Developer | Vue Inspirator

ScaleUp | Vast | 100k

WHERE CAN YOU GO STEVE JOBS ON FRONTEND?

Our Partner is one of the leading innovators in the domain of accounting and financial administration. They are rapidly growing and, as a product driven organisation, it makes them proud that their business-critical SaaS solution is already used by over 130.000 companies and more than 1500 accountancy firms across The Netherlands, Belgium and Spain. Will you help them to get the next 130.000 happy clients on their platform by building out and improving their easy to use, self-learning and highly automated financial administration software?

Working at here means that you will have fun while being serious about working on the best and most innovative financial administration solution in the market. Together with +70 product and development colleagues, working from The Netherlands, Spain and Belgium, you give your best to allow entrepreneurs and accountants to work smarter.

At Their Partner they care about their employees (eNPS +55) and you will be appreciated for building the solution that their customers enjoy (pNPS +30).

YEAH, OKAY WE NOW KNOW THIS IS A COOL COMPANY. BUT HERE IS WHAT YOU'LL BE DOING THERE:

As a Frontend Tech lead you will lead critical squad overarching Frontend projects, guide their frontend engineers (+10) on a day to day basis, and stay technically involved by developing in one of their scrum squads. Like all employees at the product and development department, you will have the opportunity to work on innovative projects all year round.

After a comprehensive onboarding, that is there to give you a comfortable start, you will be able to take on responsibilities such as:

- Leading the ongoing migration to Vue.js;
- Ensuring their Vue component management is performed in a way that allows effective working with Vue in the future;
- Contributing to the training of the whole engineering team to ensure department wide implementation of Vue practices;
- Identifying potential improvements in their technical solutions and practices;
- Leading the implementation of tech related initiatives;
- Participating and further shaping their frontend faculty meetings;
- Developing beautiful new user-facing features;
- Mentoring and coaching other developers;
- Working directly with the other Tech leads, the Head of Software Development and the Chief Software Architect.

WHAT YOU NEED BESIDES BEING A TECHIE?

- At least 5 years experience as a frontend developer, including experience with HTML, CSS (Sass), Javascript (ES6+) and frontend frameworks such as Vue.js, React, Angular.
- Good understanding of build tools and package management, such as NPM and webpack.
- Enjoys writing clear code and utilising good coding practices such as BEM.
- A good understanding of web, SPA and component architecture. A familiarity with component library management tools like Storybook is a plus.

- Knowledge and experience with web security and cross browser compatibility.
- Experience working with testing frameworks such as Jest.
- Proficient with version control such as git.
- Experience working with RESTful APIs
- Good English communication skills

WHATS IN IT FOR YOU?

- Full-time contract and competitive compensation package (trust me it's really good, up to 100K!);
- A diverse, international team based in our offices in Rotterdam, Antwerp and Barcelona;
- Opportunities to learn and grow;
- 5 weeks of "workacation" in a year;
- Creative and stimulating work environment at our office in the heart of Rotterdam, at Kop van Zuid (with an awesome view over the Erasmus Bridge);
- Sports and other activities, fresh fruit and healthy lunch.
