HAYSTACK PEOPLE

Vue developer | Fintech

ScaleUp | Vast | 80k

ABOUT THE COMPANY

Our client is an international company with a clear mission: to revolutionize the real estate management industry. They are passionate about creating solutions that help organizations optimize their processes and make real estate management more efficient. With an ambitious team, they are dedicated to delivering impactful software that addresses the real needs of the market.
What sets our client apart is their focus on collaboration and innovation. They work closely with their clients to understand their unique challenges and provide tailored solutions that drive success. By fostering a culture of entrepreneurship and creativity, they aim to empower their team members to make a real difference in the industry. If you're looking for a place where you can grow, contribute, and take ownership this is the place for you.

ROLE DESCRIPTION

Their platforms are designed to support real estate professionals with powerful tools for data management and client interaction. By using modern technologies like Vue.js and web sockets, they provide fast, reliable solutions that enhance the user experience.

As a Frontend Developer, you will work on various portals that form the foundation of their services. You'll have the freedom to think about architecture, design patterns, and the technical aspects of the applications. You'll not only be building with Vue.js but also contributing to the future of the software and working with technologies that will take the company forward.
What you'll do:

- Build and maintain frontend solutions for various portals
- Contribute to and think about software architecture
- Implement web sockets for real-time interactions
- Set up new functionalities from scratch
- Work with Vue.js and other modern tools and frameworks
- Improve existing systems and features

REQUIREMENTS

- At least 3 years of experience in frontend development with Vue.js
- Experience with design patterns and building scalable architectures
- Knowledge of web sockets and real-time applications
- Strong at building applications from the ground up
- Entrepreneurial mindset, with an eye for both detail and the bigger picture
- Dutch is a plus, but English is also fine

CONDITIONS

- Salary up to €6500 per month, depending on experience

- Flexible working hours
- Once or twice per week to the office
- Work in an entrepreneurial, innovative team
- Room for development and career growth
- Annual training budget and growth opportunities
